Business Manager

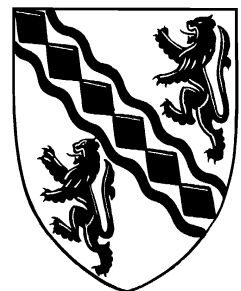

The Lee Medical Practice

Two Day Workshop On Dyspraxia and Co- ordination Difficulties

by

Michele Lee MCSP HPC (Reg)

& Sue Yoxall MCSP HPC (Reg)

The Lee Medical Practice

2 day physiotherapy course programme

This is a two day workshop which covers assessment, setting aims and goals (G.A.S.), outcome measures and treatment based on the Lee Method. Some theory is discussed but it is mainly practical in nature and involves delegate participation. Michele Lee and Sue Yoxall will share the lecturing and supervision of practical sessions over the two days. Maximum number is 14 participants. Course fees cover lunch, refreshments and comprehensive handouts.

Aims of the course:

- For each delegate to have an understanding of the definition of Dyspraxia and related conditions
- To understand the relevance of co-morbidity with other conditions
- Know how to identify the condition
- Be able to carry out an assessment
- Be able to set aims and goals for the child
- Have some knowledge of standardised tests available
- Have an understanding of how to use the Goal Attainment Scale and Outcome Measures
- Consider current research in Britain and the effectiveness of treatment
- Have some knowledge to the different forms of treatment
- Treatment ideas both for individual and group work
- Understanding how to plan treatment sessions
- Have some knowledge of alternative therapies
- Have some understanding of other aspects of the child's life such as with bullying, self esteem and social skills

4.30	Finish	

Please find attached the application form and information regarding the course at The Lee Medical Practice in Denham, Buckinghamshire.

The nearest airport is London Heathrow. You can stay at any airport hotel and get a taxi to us – about 20/30 minutes (depending on traffic) and would cost about £30 each way.

Please note that it is advisable to pre-book your taxi with a local company as the airport black cabs on the rank have a fixed charge of £55.00 minimum. Listed below are a couple of numbers for local taxis

If you want to stay close the Practice then there are a couple of hotels locally; links attached. Denham Grove is a 10/15 min walk and if you stay in Denham Village then you would still probably need a car but only 5 mins from us.

Areas closest to Denham are Uxbridge, Hillingdon, Ruislip, Gerrards Cross. Hayes, although near, does have heavy traffic and will therefore take you longer to get to/from Denham.
